Teens 4 Good is a
program managed by
the Federation of
Neighborhood Centers

Founded in 2005, T4G youth and adults shared a vision of addressing the issues of poverty, urban blight and the lack of fresh produce in many Philadelphia neighborhoods.

Our mission is to make a difference by inspiring teens to become involved in their communities. We give teens a taste of today's business world through hands-on entrepreneurial experiences that complement lessons in health, business and agriculture.

T4G is more than just a garden, we help teens realize they have the power to create their future.
